

Asian Lubricants Industry Association (ALIA)

Sustainability Statement

ALIA is committed to environmental, social and community stewardship.

CORE VALUES:

Conservation of the environment

Use of natural resources in a manner that minimises adverse impact on the environment

Full support of local and global efforts in shaping an energy future that meets the goals of United Nations' climate initiatives.

LEADERSHIP

While it seeks to influence the development of high- quality lubricants, the ALIA aims to provide leadership to its members for them to operate with an awareness of critical environmental concerns. It will focus members on the urgency of :

- a) reducing the use of energy, water and other resources
- b) increasing recycling and reusing efforts, minimising waste
- c) managing supply chains to minimise adverse environmental impact
- d) minimising the environmental footprint of their operations
- e) maintaining good governance to achieve the above

STANDARDS

ALIA believes that long- term conservation of the environment always needs businesses to operate with integrity and ethically. ALIA strives for members to act with full transparency in communicating regularly with all stakeholders on issues concerning the impact of their operations on the environment, use of resources, initiatives affecting the well-being of the local communities and the members' level of performance in these areas. ALIA will focus members on the need to report regularly, in a balanced manner and with fair disclosure.

ALIA will provide opportunity for stakeholders - employees, suppliers, customers and communities, amongst others, to participate in sustainability programs.

SUPPORT OF LOCAL COMMUNITY SOCIAL PROGRAMS

ALIA believes that, wherever they operate, members' corporate long-term development should :

a) be aligned with helping local communities on social, economic and environmental concerns

b) offer resources and innovations to local communities

Such contributions will be meaningful to the well-being, enhancement and long- term growth of the communities.

SUPPORT OF RELATED SECTORS

ALIA will also support the manufacturing, power and transport sectors in their efforts to achieve their own sustainability aspirations. It will support the collaboration between members and industry partners, government institutions, affiliated agencies and the public on education, training, and research.
